WORKING CONDITIONS/PHYSICAL ACTIVITIES

(The physical demands described are representative of those that must be met by the employee to successfully perform the essential functions of this job. ATN provides reasonable accommodation to enable individuals with disabilities to perform the essential functions.)

Job Description

MAINTENANCE SERVICE FUELER

Position Code: A_MO17
Salary Grade: A_H2

Employees at this level are required them to work in tiring, awkward, and uncomfortable positions. They frequently stand for long periods of time, bend, stoop, crawl under vehicles, and make repairs in other tight spaces. They frequently lift, handle, and carry parts and equipment weighing up to 18 kilograms (40 pounds). Occasionally, they move moderately heavy items with assistance or with mechanical devices, including objects weighing up to or over 75 pounds

The work is usually performed inside on concrete surfaces where there is exposure to drafts, noise, and fumes from vehicles. Technicians occasionally perform work outside under adverse weather conditions. They are continually exposed to dirt, dust, and grease, and to the potential for burns, chemical irritations, shocks, bruises, cuts, and strains. To reduce dangers and irritations from these conditions, they follow prescribed safety practices and use safety equipment such as safety shoes and glasses, and respirators.

SAFETY SENSITIVE

Positions in this job classification are considered safety sensitive and are subject to drug and alcohol testing, including but not limited to pre-employment testing, post- accident testing and random testing, under Federal Transportation Administration (FTA) drug and alcohol regulations, and U.S. Department of Transportation (DOT) regulations, 49 CFR Part 40 and Part 655. Please refer to the OCTA Drug and Alcohol Policy Manual for additional information
