BUDGET TRANSMITTAL

Fiscal Year
2022 / 2023

MISSION STATEMENT

To enhance public transportation options by delivering reliable and efficient transportation solutions. Our commitment to customers consists of business integrity, excellence in customer service, can-do spirit, clear communications and private-public partnerships

VISION STATEMENT

Provide a seamless and accessible public transportation system that supports diverse needs of local community and reflects the character of our constituency

GOALS

MOBILITY – deliver transportation solutions and services to improve movement of people

PUBLIC SERVICE – enhance customer satisfaction and experience by connecting local destinations

FISCAL RESPONSIBILITY – Ensure fiscal health through prudent financial management and accountability

STEWARDSHIP – Embrace responsible measures designed to promote and implement environmental practices for sustainability

ORGANIZATIONAL LEADERSHIP – Continue tradition of high-performing and sensible organization through efficient business practices

VALUES

INTEGRITY – we deliver as promised and do so ethically, equitably and with transparency

CUSTOMER SERVICE – we treat our customers as guests, with great care, consideration, and respect. Friendly, customer-centric, and professional service is our core responsibility

CAN DO SPIRIT – we approach all challenges with innovation, strategic vision, and thorough consideration

COMMUNICATION – we provide consistent information in a user-friendly, open, and easy to understand manner

TEAMWORK – we work with a sense of shared purpose and mutual respect

the ART of connecting the dots

June 22, 2022

Dear Anaheim Transportation Network Board of Directors:

Consistent with Anaheim Transportation Network's (ATN) vision, mission, and values, and in accordance with the ATN Board of Directors approved strategic and legislative initiatives, I present to you ATN's Fiscal Year 2022/2023 Operating Budget and Capital Improvement Program (CIP).

Taking into consideration current conditions and impacts, the proposed budget is balanced at \$18.7 million, and **DOES NOT** include any COVID-19 public relief funds. The presented budget commits to continued rebuilding of ATN's fiscal position and overall brand, while providing essential public transportation programs and services to deliver on our promise to the residents, workers, businesses, and destinations of The Anaheim Resort®, Platinum Triangle™, Center City, as well as surrounding communities served by ATN.

During Fiscal Year 2022/23, ATN plans to fully reestablish its level of services, introduce new initiatives, like Everyone Ventures Everywhere (EVE), continue fleet electrification, and begin planning for transit and mobility future for our city and destinations. Planning for future transportation vision of the City of Anaheim, under the banner of Advancing Neighborhood Networks for all (ANNA), will begin with adoption of this budget.

The ATN's pledge to keep its *Eye on the Future* and be an active participant in the planning of our city's transportation vision, will ensure that upcoming developments focus on equity, diversity, and accessibility solutions to foster *Ladders of Opportunity* for our residents and employees.

Even though Fiscal Year 2022/2023 represents return to pre-pandemic budgetary expenditures and staffing levels, this financial plan takes into consideration compensatory and labor challenges facing our industry. ATN's budget demonstrates a continued commitment to providing an effective, efficient, and innovative multi-modal transportation offering as we continue on a road map to enhance mobility offering for everyone working, visiting, or living in our communities.

I look forward to another productive year with ATN and your leadership to move our organization forward.

Sincerely,

Diana Kotler
Executive Director

Anaheim Transportation Network (ATN) is governed by a 15-member Board of Directors consisting of representatives of the local community. ATN is managed by an Executive Director, who acts in accordance with the directives, goals and policies established by the Board of Directors

2022/23 ATN ORGANIZATIONAL CHART

INTENTIONALLY LEFT BLANK

Created in 1995, the Anaheim Transportation Network (ATN) provides various public transportation services in the City of Anaheim. In its role to preserve integrity of mitigation monitoring measures associated with Anaheim Resort, Disneyland® Resort, Hotel Circle and Platinum Triangle™ Specific plans, ATN strives to mitigate traffic congestion and air quality impacts associated with current and future developments. ATN meets these obligations through purchase and operation of zero emission technologies to serve transportation needs of the Anaheim's commercial, recreational, employment and residential areas.

ATN operates under the guidance standards of the City of Anaheim franchise requirements, as called out in the City's Charter. On May 21, 2019, Anaheim City Council approved Ordinance No. 6464 signifying importance of public transportation and mobility services for the Anaheim residents, visitors, and businesses community.

ATN, through the foundation created by the City of Anaheim's environmental mitigation process and in partnership with entertainment, retail, and hospitality industries, created an institutional structure to finance and operate local public transportation services, to provide customers with

convenient access to the destinations and venues located in Anaheim and nearby communities. This transit program, known as Anaheim

Regional Transportation (ART), has evolved over 20 years to meet the growing demand on the transportation network through the growth of tourism and hospitality industries, development of new residential communities and growth of employment opportunities.

ATN provides public transportation services to-and-from local employment hubs, theme parks, sports venues, shopping destinations, performing arts centers, hotels, as well as throughout residential communities and employment centers. Operating through a municipal Franchise Ordinance No. 6464, ATN operates fixed, deviated fixed, on-demand and e-hail routes and services. Prior to Covid-10 pandemic,

ATN ORGANIZATIONAL PROFILE

over 9.7 million passengers, annually, used ATN's public transit services. ATN is on a trajectory to return to the pre-pandemic ridership levels. Even though, ATN's services were considerably reduced, as a direct result of Covid-19 pandemic, ATN began to reinstate its network and service in the Spring of 2021, with full come back projected by the end of Fiscal Year 2022/23. ATN also plans to introduce new service to/from Orange County's John Wayne Airport, branded as Everyone Venture's Everywhere (EVE).

In 2006, the Federal Transit Administration (FTA) issued to ATN a National Transit Database Identification Number, thus making the organization eligible to receive federal funding. ATN took full advantage of this designation and received several highly competitive LowNo Emissions grant awards from in 2008, 2019 and in 2021, respectively.

In July 2019, Anaheim City Council approved land sale to ATN to proceed with construction of new administrative and maintenance facility to support #ElectrifyAnaheim efforts to provide charging capabilities for the entire fleet of 80+ buses. In 2020, ATN received \$5.0 million grant from the California Energy Commission in support of its fleet and facility electrification efforts.

To ensure financial sustainability of the agency and ongoing funding for future Anaheim initiatives, such as Advancing Neighborhood Networks for All (ANNA),

ATN worked with the Senator Umberg's office and introduced Senate Bill 1196 (SB1196). This legislative initiative is making

its way through California State Legislature.

STRATEGIC PRIORITIES RETURN TO FULL SERVICE

The Anaheim Transportation Network's mission is to enhance transportation options by delivering reliable and efficient transportation solutions. Our commitment to customers consists of integrity, customer service, can-do spirit, communication, and partnerships.

ATN provides a menu of transportation services for the public in the Orange County region. These programs include Anaheim Regional Transportation (ART), a network of fixed and on-demand routes that serve popular destinations within The Anaheim Resort® District, Platinum Triangle, Center City and other nearby areas.

As ATN plans to celebrate 20 years of service to the community, our strategic vision for the next five years builds on the agency's foundation of meeting local transportation needs and service delivery methodology driven by our core values.

Cognizant of the fact that ATN's funding structure is limited to locally generated assessment fees, fare revenues, and capital grants, ATN closely aligns its planning and service provision with needs of the constituency it serves. To plan for the future public transit needs of Anaheim, ATN worked with the Senator Umberg's office and introduced Senate Bill 1196 (SB1196). Once passed, this

legislation will provide ATN with ongoing State Transit Assistance (STA) revenue formula funding allocation.

In response to the challenges posed by Covid-19 pandemic, ATN looked to next-generation mobility, and technology options to advance its digital payment platform and passenger information platforms. To further advance our ability to return to full-service levels, while addressing passenger concerns, ATN was the first agency, in United States, to receive Global Biorisk Advisory Council (GBAC) certification. ATN plans to maintain GBAC certification into foreseeable future.

ATN is keenly aware of the need to be the mobility leader, the need to remain pertinent to existing passengers and become relevant to a new generation of passengers by advancing next-generation mobility technologies, including on-demand real-time trip planning services and digital ticketing.

Future organizational efforts will continue with visionary discussions and close coordination with the City of Anaheim, and developments in The Platinum™ Triangle, to facilitate east-west transportation services, microtransit and autonomous initiatives. These forward-thinking planning efforts will also support preparations to host 2028 Olympic events at Anaheim venues. Through FY 2022/23, ATN will engage consulting efforts, funded by Caltrans Sustainability Grant, and in partnership with the City of Anaheim, to lay the foundation for the future transit vision of our City.

THE GAMES ARE BACK
LA 2028

ATN FY 2022/23 BUDGET PROGRAM

INTERNAL PRIORITIES

REBUILD REBUILD REBUILD

- ✓ Re-build ATN and Contracted Work Force
- ✓ Return to pre-pandemic service levels

BUILD MULTI-MODAL SERVICE PROVISION METHODOLOGY

- ✓ Strategically expand fixed route operations
- ✓ Explore deviated fixed route options
- ✓ Enhance MictroTransit offerings and connectivity with John Wayne Airport

We are clean. We are safe. We are **ART**

In November, the ATN Board of Directors, unanimously, approved its 2022/23 Local, State and Federal Legislative Platform, as a framework to guide ATN's policy, administrative, and regulatory activities.

LOCAL PRIORITIES

ADVANCING NEIGHBORHOOD NETWORKS FOR ALL

Discussions about a comprehensive mobility vision for the City of Anaheim are on-going as ATN begins to look at assessment options beyond existing hotel and retail assessment models.

New developments in The Platinum Triangle™, residential expansion in Center City and along Beach Boulevard Corridor, revised plans for the growth of the Disneyland® Resort, availability of dynamic, multimodal transportation services are central to meeting our passengers' transit needs and economic development and vitality of our area.

ATN, through secured planning funding will lead the conversation to identify and define future transportation priorities and funding options to secure sustainable, long-term operations for current and future public transportation initiatives in Anaheim.

EXTERNAL PRIORITIES

DELIVER ATN CAPITAL PROJECTS

- ✓ Continue efforts to pursue full fleet electrification
- ✓ Complete facility build-out and relocation

PURSUE ALL APPLICABLE GRANT OPPORTUNITIES

- ✓ Advance priorities identified by local community
- ✓ Seek appropriate capital funding to meet local needs

ADVANCE LEGISLATIVE AGENDA

- ✓ Advance policies in support of sustainable funding and viable long-term financial future

the **ART** of connecting the dots

STATE PRIORITIES – SENATE BILL 1196

Advance legislative efforts to secure ongoing operation Sec. 99314 State Transit Assistance (STA) funds. STA funding allocation to local public transit agencies to bring new money/additional transit funding to Orange County. ATN would be eligible to receive approximately \$930k annually. In addition, ATN will continue to seek capital funding to"

1. Pursue efforts to diversify ATN's revenue sources through equitable share of State transportation, transit, and mobility funds
2. Support regulatory policy and guidance to continue electrification efforts and growth of zero emission technologies
3. Pursue capital funding to secure future fleet expansion and to seek Governor's Olympic Transportation Fund set-aside

FEDERAL PRIORITIES

INFRASTRUCTURE INVESTMENT AND JOBS ACT

Several legislative initiatives will impact ATN with the enactment of the Infrastructure Bill to allow ATN will to seek federal investment for capital transportation projects important to Anaheim.

ATN's Federal Legislative Platform is focused on securing the largest possible share of federal transportation funds through equitable formula allocation of funds due to ATN through the regulatory processes and grant funding eligibility.

ATN PROFILE

In response to the advent of current events, ATN should strategically focus on rebuilding its revenue sources, restoring ridership and deployment of next generation of mobility options in order to be proactive in response to the dynamic nature of transit and mobility landscape. ATN is aware of the need to remain relevant to existing passengers, as well as a new generation of consumers.

Even though Covid-19 had significant impacts on traditional sources of funding for ATN, the agency was able to bridge revenue shortfalls with local, Small Business Administration (SBA) and federal relief funds. Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSSA) and America Recovery Plan (ARP) funds; the focus of ATN for FY 2022/23 will be to return to sustainable operating model by:

- Strengthening of transportation and mobility options
- Providing an enhanced guest experience through on-demand services and digital ticketing options
- Supporting revenue diversification and service expansion

FINANCIAL OUTLOOK

ATN Fiscal Year 2022/23 budget projections are based on compilation of the outlook projections based on the FY 2019/20 budget and forecasts from Visit California and Visit Anaheim.

Cognizant of the economic outlook, ATN Fiscal Year 2022/23 Operating Budget reflects changing and adopting economic realities and builds its financial projections based on local attendance guidance and with measured increase in occupancy to pre-pandemic levels.

Reinstatement of Toy Story Route, on-demand mid-day operations for core ART routes and re-instatement of FRAN service began on previous fiscal year 2021/2022, with return to full level operations in FY 2022/23. The operating budget represents a 7.46% increase in operating costs. The increase in Uses of Funds is a direct result on the increase of 18% direct transportation costs. These increases in the proposed Uses of Funds are due to the pressures created by the “great resignation” and corresponding increase in demands for adjustments to the compensation structure and work-life balance expectations.

To present a balanced budget, a 9.83% increase in Sources of Funds through return to pre-pandemic revenue generation and adjustments to certain agreements. Even through FY2022/23 is balanced, further considerations will have to be discussed in the future fiscal years.

The ATN’s Capital Improvement Program (CIP) will continue to move forward, as planned, with continued fleet electrification, facility construction and negotiations for the receipt of five new zero emission buses from Arrival. Planning for future transportation initiatives will also begin, in earnest, this fiscal year with capital grant application submittal shortly thereafter.

SOURCES OF FUNDS

ATN is presenting a balanced budget for FY 2022/2023 with no reliance on federal Covid-19 relief funds. ATN is returning to the pre-pandemic revenue generation structure. The following highlights each funding source.

Fares

ATN fare revenue generated through operation of Anaheim Regional Transportation (ART) public transit services, represented 64% of total ART revenue. ATN anticipates this level farebox recovery ratio will be maintained fiscal year with the anticipated revenue of \$4.80 Million.

Local Sources

ATN plans to receive \$10.5 Million (compared to \$9.6 Million in Fiscal Year 2019/20) from local sources, which are comprised of assessment payments from lodging and retail establishments, sporting venues and theme parks.

Advertising

For Fiscal Year 2022/23 advertising revenue is projected at \$360,000, which represents 50% of the advertising revenue generated in 2019. ATN is working to re-build relationships with advertising partners to bring this revenue source to pre-pandemic levels.

Public Sources

Public sources of funds constitute rail feeder funding, cooperative fare agreements, and other grants. ATN anticipates \$2.3 Million in revenue from these sources.

Public sources in ATN's FY2022/23 budget represent funding from an \$930,000 in annual federal apportionment of 5307 and 5339 funds; operation of rail feeder services, Senior Mobility Programs; and grants from California Air Resources Board (\$200,000) and Caltrans

(\$700,000). The two later project represent grant-specific projects and planning initiatives.

Assessments

Throughout Covid-19 pandemic, ATN suspended collection of local City of Anaheim public transit assessment fees. Tiered assessment structure was re-instated starting with the second quarter of FY22, with full assessment rates returning in December 2022.

For FY 2022/23, ATN projects to collect \$10.5 million in public transit assessment fees from hospitality industry and \$260,000 public transit assessment fees from retail establishments and \$7.6 Million in public transit assessment fees from theme parks.

With no new properties planned for opening in a foreseeable future. The current level of assessment at \$.55 per room per day is carried through FY 2022/23.

Service related assessment to off-set ATN's operating expenses are slated to increase by five percent from a billing rate of \$66.00 to \$68.00 per revenue service hour. This increase is necessary to address continued increase in compensation for driving and field personnel.

The upcoming fiscal year, still represents a year of dedicated to rebuilding of ATN services and revenue generation. Work will continue to rebuild:

1. ART fare box recovery to pre-pandemic levels of 70%

2. Advertising partners and overall promotional program needs to return to \$800,000 level of revenue

By rebuilding the above mentioned revenue sources, ATN should be able to meet staff compensation pressures.

**ATN Sources of Revenue
FY2022/23**

		FY23 Proposed	FY22 Projected	FY22 Adopted	FY19 Actual
Sources of Revenue

	Total Sources of Income	18,476,471	15,079,318	16,534,186	16,822,093

ATN is proposing a balanced budget. ATN proposing to return to pre-pandemic operating levels with reinstated revenues and service levels equivalent to FY 2019/22.

USES OF FUNDS

Preparing for FY 2022/23 budget, ATN proposing:

1. Re-introduction of service commensurate with demand
2. Enhanced touchless mobile ticketing options
3. Re-building of advertising program
4. Continued efforts to integrate Mobility as a Services functions
5. Strict safety protocols
6. Robust marketing and public outreach
7. Work with City of Anaheim to further Anaheim's transportation initiatives
8. State and Federal legislative efforts
9. Continue organizational flexibility proportionate to levels of service
10. Expansion of MicroTransit and on-demand offerings and service to the airport

CAPITAL IMPROVEMENT PROGRAM - AMENDMENT

On June 6, 2018, ATN adopted its first Capital Improvement Program (CIP) which represents ATN's short-range plan and identifies capital projects and large equipment purchases. The CIP also provides a planning schedule and identifies options for financing the plan. This document represented a five-year planning process spanning from Fiscal Year 2022/23 through 2027/2028. The proposed CIP program represents a \$59.5 Million, in funded, capital investments and \$15.8 million in value-add capital investment. The total CIP program of \$75.3 million is fully funded to complete:

1. Electrification of 46 buses – Completed
2. Purchase of five new Zero Emission Buses from Arrival
3. Facility construction and relocation – Claudina and 1354 S. Anaheim Blvd. Sites
4. MicroGrid & Solar Installation through a Power Purchase Agreement

The ATN's CIP program will be enhanced and amended to include findings from the Advancing Neighborhood Networks of All, Center City Corridors and Areas of Persistent Poverty planning activities. The next generation of funding priorities will focus on completion of fleet electrification, Mobility as a Service, MicroTransit, vehicle automation deployment, East/West connections, digital information, as well as post-Covid re-building activities.

ATN will actively pursue grant funding opportunities to fill this shortfall. Should ATN receive requested grant funds, no further actions will be required of this Board to amend ATN's CIP program. Separate action will be necessary to accept awarded funds and to enter into a funding agreement.

RESOLUTION 2022-006

**RESOLUTION OF THE BOARD OF DIRECTORS
OF THE ANAHEIM TRANSPORTATION NETWORK
APPROVING AN OPERATING AND CAPITAL BUDGET
FOR FISCAL YEAR 2022-23**

WHEREAS, the Executive Director and staff have prepared and presented to the Board of Directors a proposed operating budget in the amount of \$18.4 million for fiscal year 2022/23;

WHEREAS, the Executive Director and staff have prepared and presented to the Board of Directors a proposed capital improvement program in the amount of \$18.4 million for fiscal year 2022/23;

WHEREAS, Anaheim Transportation Network (ATN) conducted a public workshop before the Board of Directors on June 22, 2022;

WHEREAS, the proposed budget will be revised to reflect each and all of the amendments, changes, and modifications which the Board of Directors believes should be made in said proposed budget as so submitted and to correct any non-substantive errors or omissions.

NOW, THEREFORE BE IT RESOLVED, by the ATN Board of Directors of as follows:

1. ATN operating budget for the fiscal year July 1, 2022 through June 30, 2023, is hereby approved, a copy of which is on file with the ATN Finance Director;
2. The capital improvement program of the ATN for the fiscal year July 1, 2022 through June 30, 2023, is hereby approved, a copy of which is on file with the ATN Finance Director

NOW, THEREFORE, BE IT RESOLVED that the Executive Director shall certify to the passage and approval of this resolution, and it shall thereupon be in full force and effect.

ADOPTED, SIGNED and APPROVED by the ATN Board of Directors

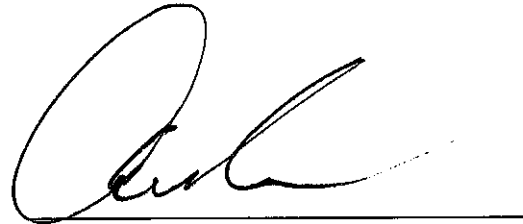

Diana Kotler
Executive Director

Paul Sanford
Chairman

I, Diana Kotler, Executive Director of the Anaheim Transportation Network, DO HEREBY CERTIFY that the foregoing Resolution Number 2022-006 was duly adopted by the Board of Directors at a regular meeting of said Board on the 22nd day of June 2022, and that it was so adopted by the following vote:

AYES: 9
NOES: 0
ABSENT: 6
